Thant Zin Min
Web Developer
Age-20

EXPERIENCE

Junior React Developer

May 2021 - Dec 2022 - 1yr 6 months

I have gained extensive experience in HTML, CSS, JavaScript, and various front-end frameworks such as React and Tailwind and other packages. I have been responsible for developing user-friendly, responsive websites and applications for a range of clients, including e-commerce websites, marketing sites, and web-based applications.

Communication Skill

As a front-end developer, I understand the importance of teamwork in delivering successful projects.Throughout the project, I maintained open communication with team members and provided regular updates on my progress. I also provided feedback to other team members when necessary and facilitated discussions to resolve any issues that arose.

Description

I am confident in my ability to contribute to any web development project.I've over 1year experience and in my development team Nova X , I have worked as front-end developer.
